1. The Ministerial Council has decided on the production plan for 1953. The new quota figures are far beyond those foreseen in the Five Year Plan.
2. Industrial production is fixed at 128 percent of the figures for 1952. The plan for agricultural production calls for an increase of the same order. In order to attain these figures, there are to be allotted to agriculture 1,400 new tractors, 1,300 threshing machines, and 1,600 binders.
3. There are 580 million lei allotted to housing construction, 40 percent more than the amount called for in the Five Year Plan.
4. Soviet demands for timber deliveries from Rumania have become so great that the ruin of the Rumanian forests, in a few years, is in sight. Woodcutting, which was formerly confined to the mountains, and in which only oaks over 60 years old were taken, has now been extended to 30-year oak trees. The government has established special camps for a reforestation program. Camps of this type have been set up in the South Dobrogea, with 800 political prisoners, including 30 priests, working in them.
5. It is uncertain how the new production plan will be financed.
